

ETR Native Health and Wellness

**Please join us in
advocating for the
health of California
Tribal communities!**

Tribal Advisory Council

By joining our Tribal Advisory Council you will help TCCC staff to develop training and skill building opportunities, policy, media, and communications strategies to better serve native communities up and down California.

Our Mission

The Tribal Community Coordinating Center's mission is to provide culturally appropriate guidance and assistance to California Indian Tribes to access and implement tobacco related programs.

Our Goals

- » Supporting California Tribes to develop community-led health initiatives.
- » Coordinating tobacco control learning, communication, and policy activities.
- » Building the capacity of emerging tribal leaders to champion tobacco education activities.
- » Creating media campaigns in partnership with California Tribal Communities.
